

Steel Cable Drag Chain

CABLE DRAG CHAIN : JR-2 SERIES (FULLY ENCLOSED AND STRONG)

The rectangular metal hose is made of all metal construction. This product meet the JB/GQ058285 enterprise joint standard and is suitable for all kinds of metal chip machine tools and cutting machine tools. Prevent high heat iron fillings from damage to your power supply, water and steam line, and protect labor safety.

Material : Stainless Steel (430)

1. Indicate the specifications and models as shown below :

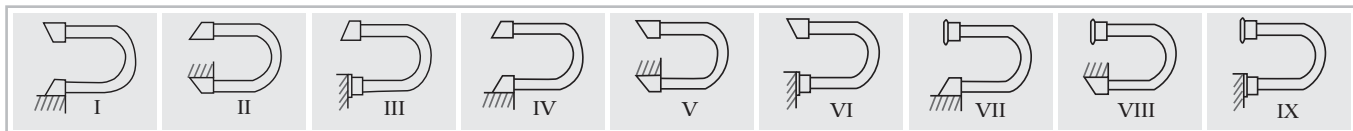

A x B x L - assembly from : L-hose length, including connector assemble. See the hose assembly from reference to the form : I-IX

2. Special joint from : a - c

Example : 25 x 50 x 1200-I 25 x 50 x 1200-AB-III

Note : 1. When placed horizontally, set the pallet with sufficient length below
2. Allow the length to exceed the length specified in the table when laying horizontally, but it is recommended to design the rolling bearing points in the appropriate position to prevent the hose from bending down.
